LUXURY BLINDS & SOFT FURNISHINGS

Life on the water gives us plenty of light and action, but unfortunately with that comes excess heat and glare that can affect your comfort whilst at sea. The range of products from Dometic blinds has been specifically developed to tackle this issue, so that your time on the water is pleasant and enjoyable.

The complete range offers the ideal systems for managing light and privacy onboard for ultimate relaxation. Unrivalled in scope and choice, our product range is designed and manufactured in-house, destruction tested, and optimised for life at sea.

- 1. ROOF & HATCH BLINDS**

Dometic roof and hatch blinds provide night time privacy and blackout whilst keeping insects away, allowing for a good night's sleep. Our roof and hatch blinds modular design accommodate any sized hatch or desired orientation and can be retrofitted over existing hatch trims or recessed into headlinings.
- 2. PORTLIGHT BLINDS**

When you're looking for privacy on board, our elegant range of portlight blinds are the perfect fit for any window, ensuring you are undisturbed day and night.
- 3. LUXURY WINDOW BLINDS**

Exquisitely engineered, we have a window treatment for every application, choose from a wide selection of styles to suit all tastes, from contemporary shades to traditional finishes.
- 4. DOOR COVERINGS**

Often forgotten, the door on your yacht can let in just as much light and heat as a window. Ensure your privacy and temperature control with one of our blinds designed specifically for doors - curved or flat!

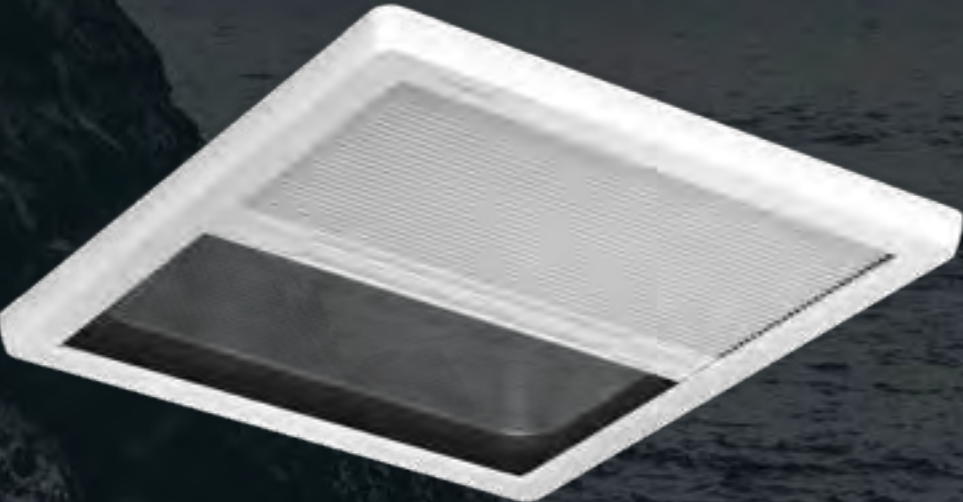

SKYSCREEN HATCH BLINDS

Keep your cabin cool, your eyes free from glare and your skin protected from those pesky bugs with the Dometic Oceanair Skyscreen. Options range from quick, retrofit solutions to discrete tailored blinds which subtly blend into the interior headlining of your boat.

**FLYSCREEN
PROTECTION**

WHAT MAKES SKYSCREEN THE BEST CHOICE FOR YOU?

Dometic Skyscreen provides a unique solution to shading boat hatches by combining a blackout blind and a separate flyscreen within one unit, tailored to fit any type and size of hatch. Our blind innovation draws upon ongoing technological advances and end-user feedback to continue to provide a high quality, cutting-edge product. Whatever your individual hatch requirements, the Skyscreen range includes a solution for you.

BENEFITS

- Blackout blind and separate insect screen in one unit
- Modular construction, available for any sized hatch
- Easy to install
- Retrofit over existing hatch trims, or recess into your headlining
- For a perfect finish, liner and trim sets are available to resolve through deck engineering challenges
- Choose between roller blind or pleated fabric dependant on your preferred design
- Choice of product for every application

1. STANDARD SIZES

Standard sizes available in our retail range

2. PERFECT FINISH ACCESSORIES

Liner or trim kits available for the perfect finish between hatch and screen

3. CHOICE OF COLOUR

Available in a choice of White or Beige

4. POWERED

Powered operation is available at 12vDC or 24vDC

5. NATURAL VENTILATION

Flyscreen lets air into the cabin for a fresher interior

6. COMPLETE BLACKOUT

Blackout, moisture resistant fabric for a low maintenance finish

DOMETIC OCEANAIR
SKYSCREEN POWERED

The Skyscreen Powered blind for hatch screens has a modular design for convenient versatility. Blind sections can be interchanged so that for example, the roller and pleated fabrics are combined within a single blind. It can also be completely concealed into the yacht headlining.

- Powered operation with 12 V DC and 24 V DC, enables effortless control
- Enjoy natural ventilation when flyscreen in use
- Can be completely concealed into yacht headlining
- Hand held remote, wall switch or integration into the control system
- Pleated or roller fabric. Blackout or flyscreen or both
- Selection of wood and aluminium trims
- Belt drive system reduces operating noise and improves efficiency

DOMETIC OCEANAIR
SKYSCREEN PLEATED

This compact and lightweight pleated hatch blind is easy to use with integrated, magnetic handles. Its slim cassette ensures minimal impact on headroom. Available with single pleat fabric as standard, or with Honeycomb fabric for complete blackout.

- Stylish powder coated aluminium cassette is also very durable
- Slim cassette ensures minimal impact on headroom
- Easy to use lightweight blind with integrated, magnetic handles
- Suitable for angled hatches (shaped)
- Concealed or surface mounted option
- Brush strip to keeps insects out
- White or beige hardware colour

DOMETIC OCEANAIR
SKYSCREEN SURFACE

Surface mounted blackout and flyscreen blind, ideal for retrofit.

- Quick and easy installation
- White or beige hardware colour
- Magnetic closure
- Optional seal or liner systems
- Ideal for thin decks
- Standard sizes available as well as custom design

DOMETIC OCEANAIR
SKYSCREEN RECESSED

Combination hatch blind, engineered to sit flush with the headlining.

- Durable powder coated aluminium cassette
- Low profile fitting means it sits flush with the headlining
- Blackout blind for a good night's sleep!
- Recoil damper system
- Standard sizes available
- Magnetic closure

DOMETIC OCEANAIR
SKYSCREEN CONCEALED

Roller and flyscreen combination blind for concealed fitting within the headlining.

- Quick release buttons available in 3 colours
- Recoil damper system
- Available with wood or aluminium trims
- Flyscreen and blackout combination

THE SIMPLE CASSETTE ROLLER FOR A GOOD NIGHT’S SLEEP

HATCHSHADE

Our Dometic Oceanair Skyshade range is available as standard with our blackout fabric, ensuring a dark cabin for a good night’s sleep. Extra benefits include UV resistance, solar reflection and moisture resistance – great features for use in a marine environment! The fabric also has a convenient wipe-clean surface. While the Skyshade’s hardware is powder coated in aluminium for a tough durability.

DOMETIC OCEANAIR SKYSHADE HATCHSHADE

Simple roller blind with a shaped cassette, designed to create a seamless finish with the headlining.

If you’re looking for a quick and simple shade to keep the light out at night, then the Skyshade Hatchshade is ideal. Fully retracting into the cassette, Hatchshade is perfect for fixed hatches, where a flyscreen is not required. Optimally designed, Hatchshade combines the performance and technology of the Skyscreen fabric in a functional, cost effective product.

- Shaped cassette for added style
- Powder coated aluminium hardware
- Side pegs enable half-way opening
- Available in white, silver or beige
- Range of hold downs available
- Also suitable for vertical operation
- Simple and fast installation with just two screws

MANUAL PLEATED ROOF BLIND WITHIN A FRAME
SKYSOL FRAME

The Dometic Oceanair Skysol Frame is engineered to solve the challenges of shading sunroofs. This elegant blind is custom designed to suit your exact needs. Pre-assembled within a rectangular frame for ease of installation and added strength, Skysol Frame provides essential overhead shading from direct sunlight, controlling cabin light and temperature. Discrete cording supports the fabric whilst leaving a completely clear, unobstructed aperture.

**DOMETIC OCEANAIR
SKYSOL FRAME**

Our Skysol Frame is our manual control, large application roof blind. Available with curved front ‘fin’ for roofs with a semi-circle front. The blind arrives readily assembled for ease of installation.

Many yacht roofs have a curved front, mirroring the curves of the yacht. This can pose challenges for blind design. However, Dometic Oceanair Skysol Frame comes with an optional ‘fin’ that can be customised to fit your roof window. This ensures a perfect finish and a complete blackout solution.

- Discrete cording supports fabric whilst leaving a completely clear aperture
- Pre-assembled, ready to install
- Blackout and flyscreen for temperature and light control, plus insect-free comfort
- Choose from pleated or honeycomb fabrics or use both in the same blind
- Optional shaped ‘fins’ for curved front recesses commonly found on yachts
- Flyscreen fabric available

IN THE MIDDAY SUN

DOMETIC OCEANAIR SKYSOL POWERED ROOFBLIND

With advances in yacht design and marine based technologies, naval architects are able to take advantage of picturesque views with larger and larger glass panels. Glass roofs are therefore becoming more popular, allowing you to take in the view of the heavens above, and enjoy the sunshine. With the midday sun however, comes heat

and glare, that is not always welcome on board. Skysol Powered Roofblind allows you to control light and heat, so that an optimum level of comfort can be reached. The ultimate in luxury living is having your blinds close at the touch of a button - why not go a step further and use an automated blind for those hard to reach windows.

WHAT MAKES SKYSOL POWERED ROOFBLIND THE BEST CHOICE FOR YOU?

Skysol Powered Roofblind is the best powered blind on the market for larger applications such as roof windows. It can be integrated into the headlining for a seamless finish. Control by hand held remote, wall switch or integration into the control system.

BENEFITS

- Innovative belt-drive system for quieter, strain-free operation
- Integrate into the headlining for seamless results
- Powered operation available with 12 V DC and 24 V DC motors
- Hand held remote, wall switch or integration into the control system
- Range of mid-rail types dependant on weight of blind
- Privacy or blackout fabrics available

1. BELT DRIVE SYSTEM

Strain-free motor drive system that operates both blinds independently

2. EFFORTLESS CONTROL

Powered by a range of motor options to cover all installation challenges

3. CONTROL

Choose from hand held remote, wall switch or integrated control operation

4. DAYTIME PRIVACY

Our range of privacy fabrics allow light into the yacht's interior whilst retaining privacy

5. BLACKOUT

Our blackout fabrics are perfect for a good night's sleep

6. COMPLEMENTS SKYSOL RANGE

Perfectly complements our Skysol range as well as the Skyscreen Powered

PORTLIGHT BLINDS

DOMETIC OCEANAIR SKYSOL MOTION

Auto-retractable pleated blind for portlights and small windows.

Skysol Motion is a contemporary, pleated blind available with a choice of fabrics. Skysol Motion's light diffusion is ideal for creating softer light in the saloon with ease and speed. When you're ready to move on, the blind can be quickly stowed away.

- Automatically retracts when released
- Suitable for inclines
- No guide wires or loose cords
- Bottom fix hold downs available
- Choice of classic pleat or honeycomb fabrics
- Available with white or beige hardware
- Standard sizes available as well as custom designs

DOMETIC OCEANAIR SKYSOL PLEATEDSHADE

Fabric pleated blind for portlights and small windows.

The Skysol Pleatedshade is available in a choice of coloured fabrics and can be tailored for simple-shape application. Offering a softer finish on windows, Dometic Oceanair Pleatedshade is suited to use in the saloon. Its light diffusing properties can create an easily adjusted ambient lighting throughout the day – perfect for a relaxed atmosphere.

- Create a soft and warm interior lighting
- Accommodates simple shapes
- Selection of easy to use hold-down and hold-up options
- Available in white, beige and light grey
- Portlight frame-fix available
- Available in standard sizes as well as custom design

DOMETIC OCEANAIR SKYSHADE PORTSHADE

Slim blackout roller blind for portlights or hatches.

Ultra slim cassette roller blind, suitable for even the smallest of portlights. Our small profile blind is ideal for portlights, particularly those in the galley which often have little space around them.

- Simple installation with just two screws
- Range of hold downs available
- Slim design for confined spaces, top or face fix
- Anti-rattle end caps
- Available in white, beige or silver
- Suitable for curved mounting surfaces
- Available in standard sizes as well as custom design

DOMETIC OCEANAIR SKYSHADE CABINSHADE

Blackout roller blind for windows and hatches.

The blackout properties of the Cabinshade make it perfect for small windows in the cabin, with the option of fitting it on the hatch, for a seamless look. Cabinshade is larger in profile than the Portshade model, so it can house more fabric. This makes it ideal for larger applications.

- Custom design available as well as standard sizes
- Simple installation requires just two screws
- Anti-rattle end caps
- Range of hold downs available
- Available in white, beige or silver
- Suitable for curved mounting surfaces
- Top or face fix

LUXURY WINDOW BLINDS

**DOMETIC OCEANAIR
SKYVENETIAN PRECISION**

Venetian blind with precision-hold control.

A versatile venetian blind has precision hold technology, meaning it can be held at any desired height through its in-built, child safe tension system. Skyvenetian Precision is available in aluminium or wood slat, with a range of standard colours to choose from.

- Choose from aluminium (16mm or 25mm) or wood slat (25mm)
- Child safe with no loose operating cords
- Elegant pinch-release chrome handles
- Range of standard colours to choose from

**WHAT MAKES SKYVENETIAN
THE BEST CHOICE FOR YOU?**

All Dometic Oceanair Skyvenetian blinds can be customised to your requirements - there are a range of standard colour options to choose from, but as with most of our products, you are free to specify a fabric that is unique to you. Our experienced team are on hand to guide your choice to best fit the intended application. With powered control options available – hand held remote, wall switch or integration with your system control – using 12 V DC, 24 V DC or mains voltage power.

BENEFITS

- Tilt control, shading the interior from intense heat, while allowing visibility through the aperture
- Likewise, tilt for privacy from the waters edge, while allowing light to cascade into the room
- A stylish looking blind that will add to the finish on the room, whilst providing functionality
- Almost every element of the blind can be customised, allowing for contrast ladders, ferrules or even stitching on leather blinds

1. CUSTOM STITCHING

Leather slats can be finished with a matching or contrasting coloured stitch

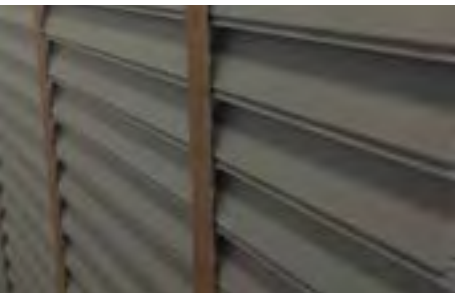

2. EFFORTLESS CONTROL

Powered options ensure effortless control with our venetian blinds (excludes Precision)

3. RANGE OF SLAT SIZES

Choose from a wide range of slat sizes specific for your project's needs

4. TAPES & LADDERS

Option of tape or string ladders available

5. OPTIONAL SIDE TRACKS

Side tracks are a great alternative to guide wires for a sophisticated look

6. CONTEMPORARY LOOK

Whichever venetian blind you choose, it will give your interior a contemporary finish

**DOMETIC OCEANAIR
SKYVENETIAN ALLOY**

Venetian blind for windows & doors.

- Simple shaping available
- Curved slats offer added strength and ensure small stack height
- Powered operation available with 12 V DC, 24 V DC or mains motors
- Range of standard colours available or customise with any RAL colour
- Various child safe manual control options

**DOMETIC OCEANAIR
SKYVENETIAN WOOD**

Hand crafted, classic venetian blind with the highest quality wooden slats.

- With choice of 25mm or 50mm wooden slat
- Available with powered operation
- Simple shaping available
- Various child safe manual control options
- Available with guide wires or side tracks to ensure taught blinds
- Range of standard colours to choose from

**DOMETIC OCEANAIR
SKYVENETIAN LEATHER**

Luxury blind with slats covered in a choice of the finest leathers, perfect for windows.

- Handmade in Great Britain
- Powered operation available (mains only)
- Hand held remote, wall switch or integration into the control system
- Select from faux or real leather fabrics, from our standard range or any other leather
- Available with guide wires or side tracks

DOMETIC OCEANAIR ROLLERBLIND PRECISION

Roller blind with precision control.

The Dometic Oceanair Rollerblind Precision takes advantage of a tensioned control system that allows the blind to be positioned and held at any height. A light push or pull on the hem bar, raises or lowers the blind to the exact height needed.

- Easy operation and precise control
- Range of stylish fittings available
- Brushed aluminium hardware
- Colour co-ordinated or contrasting hardware insert options
- Available with guide wires to secure taut blinds in position

WHAT MAKES ROLLERBLIND THE BEST CHOICE FOR YOU?

Compact, discreet and practical in their design, roller blinds provide excellent shading qualities. Whether very large or very small, hand operated or motorised, there is a roller blind treatment to suit every window. With a vast range of fabrics, textures and colours available, you'll be sure to find the perfect solution to meet your every interior design need.

BENEFITS

- Custom manufactured to client specification
- Broad range of sheer, dimout and blackout fabrics
- Lamination service for non-roller specific fabrics, which can be client supplied or sourced
- Zip system option for inclined windows
- Optional tracks and guide wires hold the blind in place, ideal for angles, apertures or simply when the vessel is in motion
- Powered and manual options available, complemented by a wide range of control mechanisms and accessories

DOMETIC OCEANAIR ROLLERBLIND

An elegant roller blind, available with manual or powered control options

The functional roller blind has been given an upgrade. Featuring an elegant and durable powder coated aluminium finish, the discrete design of the Dometic Oceanair Rollerblind provides light control, while also adding a contemporary look to your yacht.

- Manual or powered (12 V DC, 24 V DC or mains) operation available
- Range of stylish fittings available
- Durable aluminium hardware
- Cord or chain operation
- Guide wire or side tracks available for securely held taught blinds
- Classic roller blind look
- Hand held remote, wall switch or integration into the control system

1. FABRIC CHOICE

Choose from a variety of sheer, privacy or blackout fabrics

2. EFFORTLESS CONTROL

Powered options ensure effortless control with our Rollerblind range (excludes Precision)

3. CUSTOMISE

Choice of black, white or silver hardware and insert colours

4. CASSETTE OPTION

Cassette available to conceal the blind, mounting profile for a simple fit or standard bracket option

5. SIDE TRACKS

For minimising light gap, side tracks are available on Rollerblind Powered

6. DUAL BRACKET OPTION

Dual brackets allow a sheer and blackout blind to sit neatly together for maximum flexibility

Capture stunning views with Dometic Oceanair Skyview, a hybrid venetian and roller blind, with the best of each blended into one. Skyview can be controlled by either cord, chain or powered operation. Make the most of those great views with powered control and operate your blinds at the touch of a button. Skyview features tilting horizontal vanes suspended between two sheer fabrics, allowing soft light diffusion and privacy without spoiling the view.

DOMETIC OCEANAIR SKYVIEW

Capture stunning views with Dometic Oceanair Skyview, a hybrid Venetian and Roller blind, with the best of each blended into one.

Skyview offers the functionality and tilt control of a venetian blind with the simplicity of a roller blind. The blind can be completely stowed out of sight onto a single roller. When deployed it ensures privacy and heat protection. The open tilt allows for perfect views and light control.

- Open tilt for perfect views
- Closed tilt for privacy and light control
- Powered operation available with 12 V DC, 24 V DC or mains motors
- Hand held remote, wall switch or integration into the control system
- Available with guide wire control for more secure deployment
- Soft, subtle finish with a contemporary style

Dometic Oceanair Windowshade is a cassette roller blind mounted in its own framework, providing the ideal shading solution for larger windows. Windowshade features zippers in the side tracks of the blind - this ensures that the roller fabric does not blow out of the track. Instead, the blind is kept taut at all times and is lowered or raised smoothly. A discreet, efficient and robust head rail houses the roller blind fabric and operating mechanisms.

DOMETIC OCEANAIR WINDOWSHADE

Zip tensioned roller blind for inclined windows and sun roofs.

Windowshade features unique zip control running through the blind's integrated side tracks. The zip mechanism holds the fabric taut so that there is no sag or blow-out. This makes the blind ideal for horizontal application on sun roofs or inclined windows. The edge of the fabric is retained within the blind's side tracks reducing light seepage and ensuring privacy. Air trapped between window pane and the roller fabric provides beneficial insulation and noise reduction properties.

- Suitable for inclines of any angle
- Pre-assembled and ready to install
- Powered operation available with 24 V DC or mains motors
- Hand held remote, wall switch or integration into the control system
- Available in white or black
- Choice of privacy and blackout fabrics

The ideal solution for large windows - The Bigshade benefits from a large cassette which allows it to accommodate more fabric than any other blind in the Skyshade range. It is ideal for use as a retrofit product for larger windows and roof lights. While the shaped cassette design ensures a seamless finish.

**DOMETIC OCEANAIR
SKYSHADE BIGSHADE**

Simple roller blind with a shaped cassette - blackout system for large windows.

Suitable for windows or roofs, Skyshade Bigshade is ideal for larger applications. Its cassette design means it will stow into itself, retracting clear of the aperture, allowing you to enjoy great views during the day. Includes anti-rattle end caps to avoid disturbance.

- Shaped cassette for a seamless look
- Suitable for horizontal or vertical application
- Anti-rattle end caps
- Simple installation
- Available in white, grey, black or beige
- Range of hold downs available

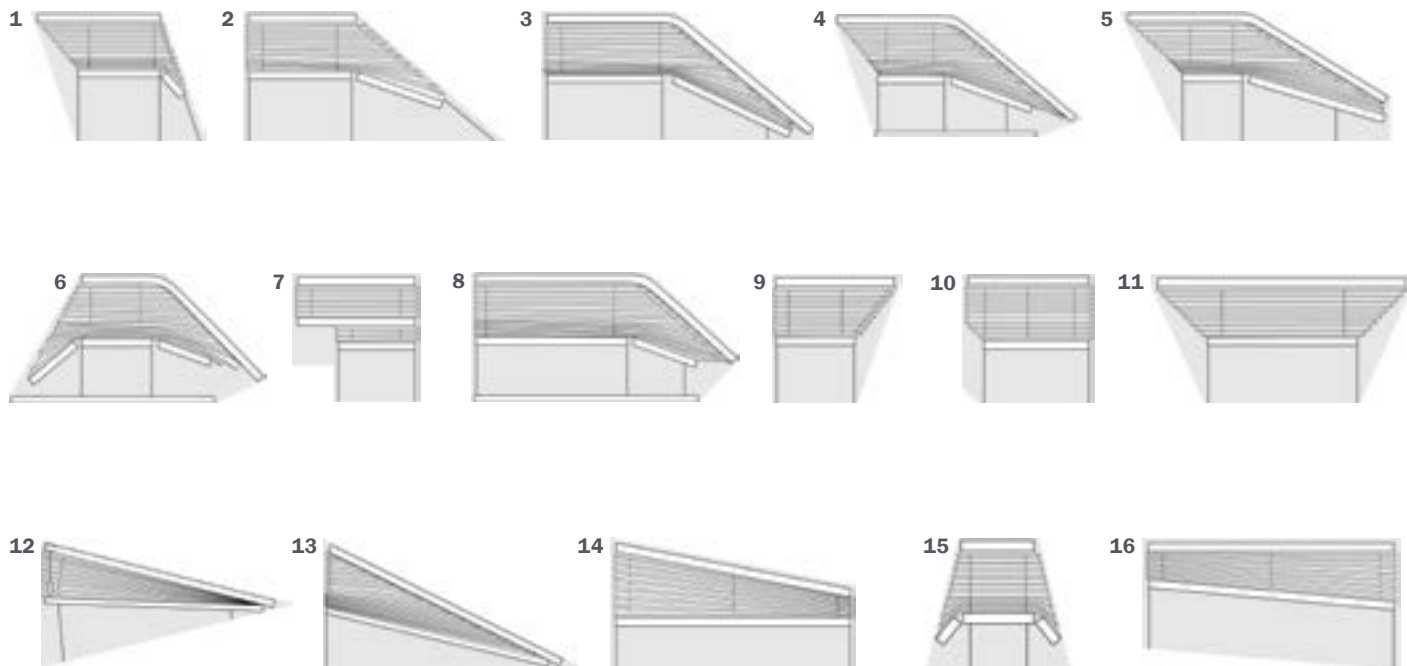

**DOMETIC OCEANAIR
SKYSOL CLASSIC**

Pleated blinds for windows of any shape or incline.

Elegant yacht designs create a range of installation challenges, particularly with shaped forward windows. Angled windows often allow excess light and heat into the saloon – Dometic Oceanair Skysol is the perfect solution. Skysol Classic can be neatly recessed into the aperture so that it is hidden when stowed. It also works at any angle and can be custom designed to fit any shape!

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation available with 12 V DC, 24 VDC or mains motors. Hand held remote, wall switch or integration into the control system
- Low profile head rail for discrete look
- 16 shapes suitable for any window type
- Suitable for inclines of any angle

1. FABRIC CHOICE

Choose from a wide variety of 20mm sheer, privacy or blackout fabrics

2. EFFORTLESS CONTROL

Powered options ensure effortless control with our Skysol blinds

3. COLOURS

Choice of beige, white or graphite hardware colours to suit your interior

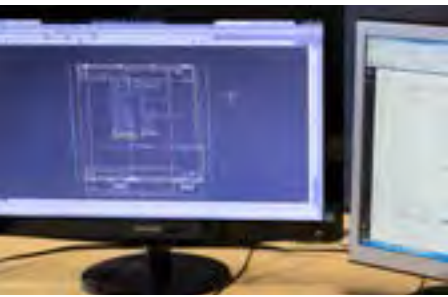

4. AT ANY ANGLE

Skysol blinds are beautifully tensioned so that they work at any angle

5. PERFECT FOR SHAPED WINDOWS

The perfect solution for shaped windows

6. DESIGNED TO FIT

Our engineering experts design every one of your blinds for the perfect fit every time

In addition to our range of SKYSOL shaping solutions, Dometic Honeycomb and Day/Night blinds can add another level of light control, with no visible cording holes to the face of the fabric, this means that with a blackout blind, you will get true blackout coverage for a great night’s sleep and complete privacy.

**DOMETIC OCEANAIR
SKYSOL HONEYCOMB**

An elegant custom-built pleated blind, ideal for natural light and temperature control.

This elegant custom-built pleated blind is ideal for natural light and temperature control. Stylish yet functional, Skysol Honeycomb also protects your privacy on board the yacht. Its slim profile is suitable for slim recesses. The nature of honeycomb fabric means that unlike single pleated fabric, the cording is not visible. Since no holes have to be punched into the fabric for operating cords, there is no light seepage. The shading results are thorough and crisp.

- Suitable for slim recesses
- Choice of fabric types and colours
- Powered operation available with 12 V DC, 24 V DC or mains motors
- Hand held remote, wall switch or integration into the control system
- Available with white, beige or grey hardware
- Suitable for inclines
- No visible cording holes

**DOMETIC OCEANAIR
SKYSOL DAY/NIGHT**

Combination blackout and privacy pleated blind for windows.

Skysol Day/Night provides excellent control of light, shade and privacy. Suitable for inclines and slim recesses. Powered operation is available for effortless control. Our honeycomb pleated fabric improves both the functionality and aesthetic of the Dometic Oceanair Skysol Day/Night blind. Any cording holes needed to operate the blind are hidden from view. Not only does this look smarter, it also ensures full privacy and blackout are achieved.

- Suitable for slim recesses
- Suitable for inclines
- Powered operation available for effortless control (24 V DC)
- Hand held remote, wall switch or integration into the control system
- Choice of manual control options
- Choice of fabric types and colours
- Available with white, beige or grey hardware

HANDMADE FABRIC BLIND FOR WINDOWS

ROMANBLIND

Dometic Oceanair Romanblinds are a stylish, practical alternative to curtains. Offering privacy, light reduction and on-board temperature control, the chic fabric cascades down the window aperture to create a stylish interior. The Romanblind frames and decorates windows and adds a luxurious aesthetic. Featuring a child-safe design, it's also available with guide wires and side tracks to ensure taut blinds are secured in place.

WHAT MAKES ROMANBLIND THE BEST CHOICE FOR YOU?

A traditional fabric blind tailored to your exact requirements by experienced machinists. Add a luxurious look to your windows, whether you need a functional blackout or sheer blind, or simply a decorative accessory, Romanblind could be the perfect match for your yacht.

BENEFITS

- Suitable for slight inclines
- Handmade in Great Britain
- Child safe design gives peace of mind
- Interlining available for extra warmth and a luxurious touch
- Available with guide wires and side tracks
- Powered operation available with 12 V DC, 24 V DC or mains motors
- Hand held remote, wall switch or integration into the control system

Dometic Oceanair Skysol Track Small can be varied in all manner of ways to suit your yacht’s design. Choose which end the blind stows, dual blinds can helpfully be stowed at one or both ends. This means that if there is little recess space at the bottom, both blinds can be stowed at the top of the door, thus keeping the opening as clear as possible. The in-built gliders slide smoothly down custom-made curved tracks, ensuring the blind operates effortlessly every time. Combine a privacy and blackout fabric for best results.

WHAT MAKES TRACK SMALL THE BEST CHOICE FOR YOU?

Skysol Track Small is perfect for those tricky curved recesses, commonly found on companionway doors. The inbuilt gliders slide smoothly down custom-made curved tracks, ensuring the blind operates effortlessly every time. Choose light filtering honeycomb fabric for a warming ambience or blackout honeycomb fabric for complete privacy.

BENEFITS

- Dual fabric option available to combine privacy and blackout fabrics
- Choice of which end the blind stows
- Dual blinds can stow at one end or both ends
- Suitable for tight radius curves
- Choice of privacy or blackout 25mm honeycomb fabrics
- Moving rail controls adjustable blind position, available with co-ordinating handles
- Powder coated aluminium hardware for a stylish finish

1. TIGHT CORNERS

Designed to fit around a tight radius, curved corner windows are no problem!

2. PRIVACY

Let the light in yet maintain your privacy on board

3. BLACKOUT

Ideal for a great night’s sleep

4. NOT JUST FOR DOORS

Skysol Track Small is also suitable for curved windows

5. EFFORTLESS CONTROL

Available with powered control – operation at the touch of a button!

6. CUSTOM TRACKS

Our custom-made bent aluminium tracks make operating the blind smooth and simple

The Dometic Oceanair Companionway is perfect for controlling the light, heat and wind which enters your yacht. Also, unique to the market, it has a combined blackout and flyscreen roller blind solution for keeping insects out too. If that wasn't enough, you will benefit from added privacy when you need it! The integrated design ensures a completely clear and accessible companionway when required.

**DOMETIC OCEANAIR
COMPANIONWAY**

Roller blind for curved companionways or doors.

Doors and companionways are often forgotten as a point of light and heat entry. With updates in yacht design meaning that more and more doors are using contemporary glass, it is important to keep them protected so as to keep the cabin cool. Use the roller flyscreen to keep the insects out, while allowing fresh air to flow into the saloon. The blackout screen can be used for maximum privacy and shade from the sun. Each feature can be adjusted separately for an optimum mix and maximum comfort!

- Child-safe button release handle for top blind and loop pull for bottom blind
- Flyscreen keeps insects out
- Blackout blind for extra privacy and shade
- Position both blinds separately for an optimum mix
- Custom curved side-tracks
- Powder coated aluminium hardware

With its easy to use operation, Dometic Oceanair Skysol Precision is ideal for use on doors, where quick and convenient access in and out is needed. Simple to lift and position at any height, Skysol Precision is lightweight and will help to shade the interior during sunny days. Not only does this remove glare from the sun, it also helps to maintain a comfortable on-board temperature on the hottest of days.

**DOMETIC OCEANAIR
SKYSOL PRECISION**

SKYSOL Precision is capable of covering large recesses, suitable for yacht windows and aft patio doors.

Skysol Precision is a simple pleated blind that can be fitted to a doorway – it simply lifts up with a touch of the hand, and pulls effortlessly back down again. This ease of use makes it a practical solution for a frequently used aperture.

- Magnet hold prevents rattling noises
- Minimal fabric stack when stowed
- Lightweight makes it effortless to use
- A choice of privacy or blackout honeycomb fabrics
- Perfectly suited to aft patio doors, including child safe design
- Deploy and hold at any height

SIT BACK & RELAX

UNWIND WITH OUR SELECTION OF CREATURE COMFORT ACCESSORIES
FOR YOUR YACHT - THE PERFECT FINISHING TOUCH!

Complement your interior with the use of luxury bedspreads and throws, designed to fit your every need. A simple throw or bed runner can complete the look of your cabin. OXFORD CONTRAST

THE PERFECT FINISH FOR ANY BOAT

CUSHIONS & PILLOWS

The ultimate in interior accessories, adding these finishing touches to your home away from home can completely change the comfort and style of the space

1. ALL IN THE DETAIL

Button detailing can be added for an extra touch of class

2. EMBROIDERY

Personalise with matching or contrasting colour embroidery

3. INVISIBLE ZIP

Our cushions are finished with invisible zips for a seamless finish

4. CONTRAST PIPING

Piping adds a luxury feel to the cushion, add a bold statement with contrast piping

5. MITRED CORNERS

Exquisitely tailored corners, perfectly matched

6. TRIMMING

Trim finishes for your cushions for added elegance

DOMETIC OCEANAIR
BEDDING

A complete bedding package can be provided, from linens to throws & bed runners that take indulgence to another level.

The complete set can be designed to your specification in style and colour or even include details such as embroidered logos or monograms. Bed sets are made from the highest quality fabrics and with the option of tailored sheeting for the perfect fit. Whether choosing a contemporary or traditional style, bedding is a quick and simple way to transform the appearance of your yacht.

- Personalisation with in-house embroidery service
- Luxury sheets made from the finest premium linens, blending cotton and polyester for optimum durability and comfort
- Design consultancy to coordinate fabrics with existing interior and furnishings
- Wide range of quality fabrics to compliment any interior
- Custom made bedspreads and throws to cater for mattresses of all shapes and sizes

DOMETIC OCEANAIR
TOWELS

Made to an uncompromisingly high standard and tested for absorbency, shrinkage, colour fastness and shredding.

Dometic Oceanair Towels are made from premium cotton and an innovative yarn spinning technology is used to ensure lasting softness. Lengthened low twist, stable spun fibre loops offer durability, reduced drying times and lasting colour. Add a personal touch to your towel collection with our in-house embroidery service. Towel sets are available in white.

- Innovative yarn spinning technology ensures cotton softness
- Embroidery service available
- Quick drying properties are ideal for on-board usage
- Lengthened low twist, stable spun fibre loops offer durability, reduced drying times and lasting colour
- Tested for absorbency, shrinkage, colour fastness and shedding
- 100% premium cotton

/ TOILET ACCESSORIES

HYGIENE & SANITATION

TOILET ACCESSORIES

A RANGE OF ACCESSORIES FOR EVERY
DAY COMFORT ON BOARD

We want you to travel in complete comfort and convenience. This is the idea behind our Hygiene & Sanitation range. It provides you with well-engineered sanitation solutions and practical, easy to-use hygiene accessories for undiminished recreation. Enjoy your journey in nice and neat surroundings, and maintain the value of your precious

equipment for many years to come! Dometic want to make life easier while you're away from home. Our fully recyclable brush heads have been designed with a convenient push release connection, so you can replace them easily and hygienically, while the Dryroll and Brush & Stow are designed specifically for small bathrooms.

**DOMETIC OCEANAIR
DRYROLL**

An innovative watertight toilet tissue dispenser with automatic paper delivery and auto retract feature.

Dryroll will eliminate wet toilet paper completely, providing an ideal solution to the practicalities of living on board. Dryroll has a watertight seal that prevents water getting in. A handy automatic delivery feature also means that you’ll never be searching for the end of the roll, and the auto retract feature neatly tucks the end of the tissue back into the holder after use.

- Waterproof when closed
- Automatic paper delivery and rewind mechanism
- Hard wearing moulded ABS plastic, hygienic and easy to clean
- Simple installation, all mounting hardware included

**DOMETIC OCEANAIR
BRUSH & STOW**

Engineered to fit the small toilet bowls commonly found in yacht heads.

This unique toilet cleaning brush was specifically designed for motor home & yacht bathrooms. It perfectly fits the smaller bowls of travel toilets and is stored in a tightly closed, wall mounted container for a secure hold during the journey. The brush head can be quickly and hygienically replaced.

- Small brush head is custom designed for compact toilets
- Wall mounted container for a secure hold during the journey
- Push-release for hygienic, non-contact brush head replacement
- Tight closing lock-in lid keeps shower water out and traps odours in
- Brush container can be removed for easy cleaning

**BRUSH & STOW
REPLACEMENT HEADS**

Available in packs of three, or in boxes of larger amounts.

We want you to travel in complete comfort and convenience. This is the idea behind our Hygiene & Sanitation range. It provides you with well-engineered sanitation solutions and practical, easy to-use hygiene accessories for undiminished recreation. Enjoy your journey in nice and neat surroundings, and maintain the value of your precious equipment for many years to come!

- Small brush head is custom designed for compact toilets
- Push release for non-contact brush replacement
- Made from recyclable polypropylene
