# UNIVERSAL LEISURE COOLERS

“Cool fun” for picnic beginners and professionals – available in two different model versions, both with a USB connection for charging mobile devices. Dometic CoolFun SC stands for high-performance thermoelectric cooling at a good price. The practical leisure coolers provide cooling up to 18 °C below the ambient temperature.

Our recommendation for picnic professionals is the SC 38, because it offers an ample storage capacity of 37 litres and many convenient extras: sturdy wheels and a telescopic handle for ease of transport, a flexible interior partition system, a split lid for minimal cooling loss, and the option to keep lunch warm if required.
