**Notes**

- If recess size is specified the blind will be made X minus 10 mm[3/8"] and Y minus 5mm[1/4"].
- Installation height required for cord operated blinds. EN13120 Standards demand the distance from the floor to the bottom of the pull cord(s) shall be at least 1500 mm [59 1/16"].and a cord collection device (cleat) is fitted at or above this height. We can only supply blinds meeting these conditions unless the above question has been answered No.
- Cord Loop is supplied with a cord tidy child safety device as standard, please select colour.
- Installation height less cord length must be greater than 1500 mm [59 1/16"].
- Please fill in a Powered Accessories Order Form, download from [here](#).
- Specialist motor please contact manufacturer before ordering.

• A selection of simple shapes are available, please contact manufacturer for more details.

• **Wood Venetian blinds are not suitable in areas of high humidity, toilets, bathrooms or wet rooms. Please consult manufacturer regarding alternative solutions for these areas.**

**Motor codes & specifications (Other motors available please contact manufacturer for details)**
