

PRODUCT INFO

DOMETIC OCEANAIR WINDOWSHADE

Windowshade features unique zip control running through the blind's integrated side tracks. The zip mechanism holds the fabric taut so that there is no sag or blow-out. This makes the blind ideal for horizontal application on sun roofs or inclined windows.

 **DOMETIC**

RELIABLE SHADE AND PRIVACY

Dometic Oceanair Windowshade is a sleek, functional and stylish roller blind which is ideal for yacht sun roofs, allowing for privacy and shade with minimal light seepage and drafts. This versatile blind works at any incline angle offering maximum practical applications. Windowshade can even be powered for effortless operation via a range of controls, including: hand held remote, wall switch or control system integration. Available with 12/24 V DC or Mains power motors. Choose from a range of privacy and blackout fabrics.

BENEFITS WITH WINDOWSHADE

- The edge of the fabric can be retained within the blind's side tracks reducing light seepage and ensuring privacy
- Air trapped between window pane and the roller fabric provides beneficial insulation and noise reduction properties
- A discreet, efficient and robust head rail houses the roller blind fabric and operating mechanisms
- Choice of sheer, dimout and blackout fabrics
- Supplied preassembled and ready to install
- Powered operation available

SPECIFICATIONS
