SHADING SPACES

Luxury blinds & soft furnishings

Life on the water gives us plenty of light and action, but unfortunately with that comes excess heat and glare that can affect your comfort whilst at sea. The range of products from Dometic Blinds has been specifically developed to tackle this issue so that your time on the water is pleasant and enjoyable.

The complete range offers the ideal systems for managing light and privacy onboard for ultimate relaxation. Unrivalled in scope and choice, our product range is designed and manufactured in-house, destruction tested and optimised for life at sea.

1. Pleated Blinds
When you're looking for privacy on board, our elegant range of pleated blinds is the perfect fit for any window, ensuring you are undisturbed day and night.

2. Roller Blinds
Available in a wide range of light and temperature-regulating fabrics with manual, powered and precision control options, Dometic roller blinds can be easily integrated to seamlessly fit and complement other window treatments.

3. Roof and Hatch Blinds
Dometic roof and hatch blinds provide nighttime privacy and blackout whilst keeping insects away, allowing for a good night's sleep.

4. Venetian Blinds
Exquisitely engineered, we have a window treatment for every application. Choose from a wide selection of styles to suit all tastes, from contemporary shades to traditional finishes.

5. Soft Furnishing
From classic to contemporary or simply introducing a touch of home comfort onboard, the versatility of Dometic's range of soft furnishings provides the ideal solution. With a wide variety and combination of fabrics, styles, and finishes, our design team is on hand to guide you through the entire process.

PLEATED BLINDS

STAY SHADED ON THE WATER

Dometic Oceanair pleated blind solutions

When out on the water you can be exposed to excessive heat and light, potentially causing discomfort onboard your vessel. Dometic’s range of pleated blinds has been specifically developed and tested to not only tackle these issues but also allow you to easily control your onboard environment.

Dometic’s pleated blinds can be fitted into any size, inclined or shaped window making them suitable for all types of windows and boats. Available in child-safe, manual or powered control mechanisms, they offer consistency in styling, effective light and temperature control, with a smart finish.

WHAT MAKES SKYSOL THE BEST CHOICE FOR YOU?

Ideal for shaped, inclined, or standard yacht windows, our Skysol range is custom-designed for a seamless fit. Whatever your needs – from gentle light to complete blackout, warm comfort to cool shade, discrete shading to total privacy – Skysol blinds can be designed to create a range of moods. With a bespoke style, the UV-resistant and marine-ready Skysol blinds have been engineered to reduce maintenance bills by keeping excessive heat out in warmer climates and retaining warmth in colder environments.

Benefits

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation available with 12 V DC or 24 V DC
- Operation via handheld remote, wall switch (not supplied), or integration into the control system
- Range of 20 mm pleated fabrics in sheer, privacy, and blackout types
- Available with, white, beige, grey or black hardware to suit yacht interior
- Low profile headrail for a discrete look

1. Fabric choice

Choose from a wide variety of 20 mm sheer, privacy, or blackout fabrics.

2. Effortless control

Powered options ensure effortless control with our Skysol blinds.

3. Colours

Choice of beige, white, black or graphite hardware colours to suit your interior.

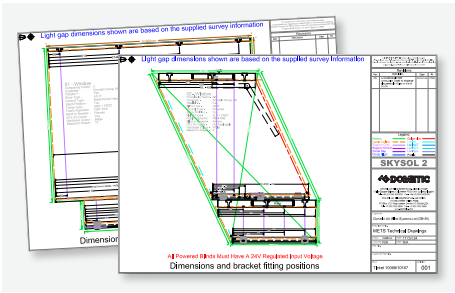

4. At any angle

Skysol blinds are beautifully tensioned so that they work at any angle.

5. Perfect for shaped windows

The perfect solution for shaped windows.

6. Designed to fit

Our engineering experts design every one of your blinds for the perfect fit every time.

Dometic Oceanair Skysol Pleatedshade

Fabric pleated blind for portlights and small windows.

The Skysol Pleatedshade is available in a choice of coloured fabrics and can be tailored for simple-shape application. Offering a softer finish on windows, Dometic Oceanair Pleatedshade is suited to use in the saloon. Its light-diffusing properties can create easily adjusted ambient lighting throughout the day – perfect for a relaxed atmosphere.

- Create a soft and warm interior lighting
- Accommodates simple shapes
- Selection of easy-to-use hold-down and hold-up options
- Available in white, beige and light grey
- Portlight frame-fix available
- Available in standard sizes as well as custom design

Dometic Oceanair Skysol Honeycomb

Honeycomb pleated blind for windows.

This elegant custom-built pleated blind is ideal for natural light and temperature control. Stylish yet functional, Skysol Honeycomb also protects your privacy on board the yacht. Its slim profile is suitable for slim recesses. The nature of honeycomb fabric means that, unlike single pleated fabric, the cording is not visible. Since no holes have to be punched into the fabric for operating cords, there is no light seepage. The shading results are thorough and crisp.

- Suitable for slim recesses
- Choice of fabric types and colours
- Powered operation available with 12 V DC or 24 V DC
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Available with white, beige, grey or black hardware
- Suitable for inclines
- No visible cording holes

Dometic Oceanair Skysol Motion

Auto-retractable pleated blind for portlights and small windows.

Skysol Motion is a contemporary, pleated blind available with a choice of fabrics. Skysol Motion’s light diffusion is ideal for creating softer light in the saloon with ease and speed. When you’re ready to move on, the blind can be quickly stowed away.

- Automatically retracts when released
- Suitable for slight inclines
- No guide wires or loose cords
- Bottom fix hold-downs available
- Choice of classic pleat or honeycomb fabrics
- Available with white, beige or graphite hardware
- Standard sizes available as well as custom designs

Dometic Oceanair Skysol Day/Night

Combination blackout and privacy pleated blind for windows.

Skysol Day/Night provides excellent control of light, shade, and privacy. Suitable for inclines and slim recesses. Powered operation is available for effortless control. Our honeycomb pleated fabric improves both the functionality and aesthetic of the Dometic Oceanair Skysol Day/Night blind. Any cording holes needed to operate the blind are hidden from view. Not only does this look smarter, but it also ensures full privacy and blackout are achieved.

- Suitable for slim recesses
- Suitable for inclines
- Powered operation available for effortless control (12 V or 24 V DC)
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Choice of manual control options
- Choice of fabric types and colours
- Available with white, beige, grey or black hardware

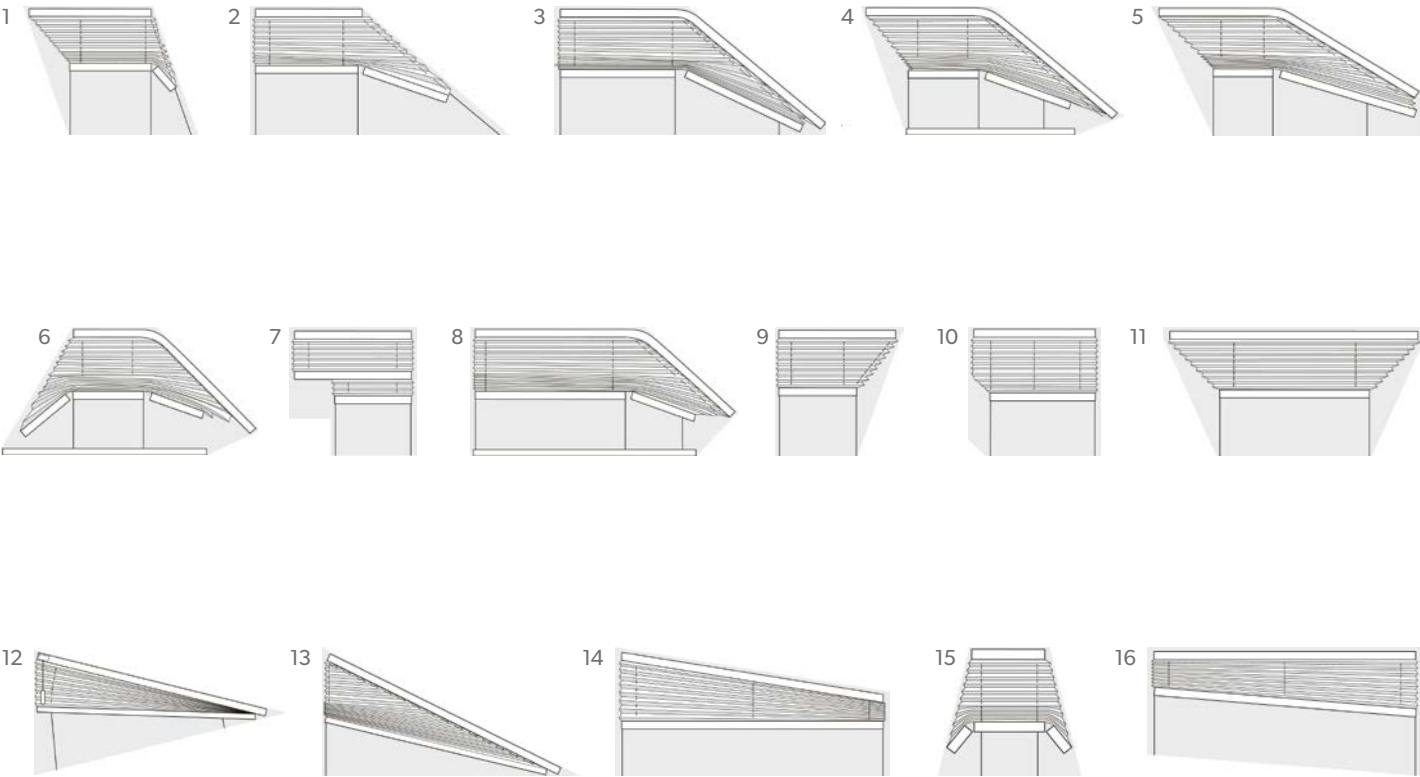

Dometic Oceanair Skysol Classic

Pleated blinds for windows of any shape or incline.

Elegant yacht designs create a range of installation challenges, particularly with shaped forward windows. Angled windows often allow excess light and heat into the saloon – Dometic Oceanair Skysol is the perfect solution. Skysol Classic can be neatly recessed into the aperture so that it is hidden when stowed. It also works at any angle and can be custom-designed to fit any shape.

- Retains heat in colder climates or blocks excessive heat in hot climates
- Powered operation is available with 12 V DC or 24 VDC
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Low profile headrail for a discrete look
- 16 shapes suitable for any window type
- Suitable for inclines of any angle

Available shapes

1. Fabric choice
Choose from a wide variety of 20 mm sheer, privacy, or blackout fabrics.

2. Effortless control
Powered options ensure effortless control with our Skysol blinds.

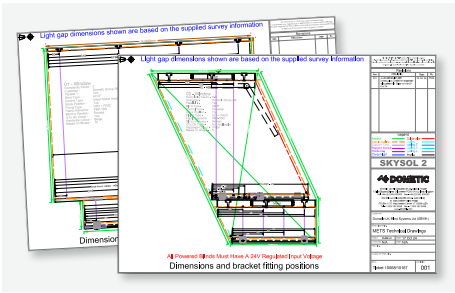

3. Colours
Choice of beige, white or black hardware colours to suit your interior.

4. At any angle
Skysol blinds are beautifully tensioned so that they work at any angle.

5. Perfect for shaped windows
The perfect solution for shaped windows.

6. Designed to fit
Our engineering experts design every one of your blinds for the perfect fit every time.

Dometic Oceanair Skysol Track Small

Skysol Track Small is perfect for those tricky curved recesses, commonly found on companionway doors. The inbuilt gliders slide smoothly down custom-made curved tracks, ensuring the blind operates effortlessly every time. Choose light-filtering honeycomb fabric for a warming ambience or blackout honeycomb fabric for complete privacy.

- Dual fabric option available to combine privacy and blackout fabrics
- Choice of which end the blind stows
- Suitable for tight radius curves
- Choice of privacy or blackout 25 mm honeycomb fabrics
- Moving rail controls adjustable blind position, available with coordinating handles
- Powder-coated aluminium hardware for a stylish finish
- Available as single fabric/single-ended & double fabric/double-ended only

Benefits of Skysol Track Small

1. Tight corners
Designed to fit around a tight radius. Curved corner windows are no problem.

2. Privacy
Let the light in, yet maintain your privacy on board.

3. Blackout
Ideal for a great night’s sleep.

4. Not just for doors
Skysol Track Small is also suitable for curved windows.

5. Effortless control
Available with powered control – operation at the touch of a button.

6. Custom tracks
Our custom-made bent aluminium tracks make operating the blind smooth and simple.

Dometic Oceanair Skysol Precision

Skysol Precision is capable of covering large recesses, suitable for yacht windows and aft patio doors.

Skysol Precision is a simple pleated blind that can be fitted to a doorway – it simply lifts with a touch of the hand and pulls effortlessly back down again. This ease of use makes it a practical solution for a frequently used aperture.

- Magnet hold prevents rattling noises
- Minimal fabric stack when stowed
- Lightweight makes it effortless to use
- A choice of privacy or blackout honeycomb fabrics
- Perfectly suited to aft patio doors, including child-safe design
- Deploy and hold at any height

BLINDS TO SUIT ANY INTERIOR

Dometic Oceanair roller blind solutions

When out on the water, you want products that are not only attractive but practical. Dometic’s roller blind range provides excellent shading qualities and the benefit of extended onboard privacy with a classic roller blind aesthetic. Available in a wide range of light and temperature regulating fabrics with manual and powered options, our roller blinds

can be integrated to seamlessly fit and complement other window treatments. Whether you are looking for a contemporary or modern style, Dometic has the ideal solution. If you want our latest development, why not try the roller blind PrecisionRise allowing you to lock your blind into place at any position.

WHAT MAKES ROLLER BLINDS THE BEST CHOICE FOR YOU?

Compact, discreet and practical in their design, roller blinds provide excellent shading qualities. Whether very large or very small, hand-operated or motorised, there is a roller blind treatment to suit every window. With a vast range of fabrics, textures, and colours available, you’ll be sure to find the perfect solution to meet your every interior design need.

Benefits

- Custom manufactured to client specification
- Broad range of sheer, dimout, and blackout fabrics
- Optional tracks and guide wires hold the blind in place, ideal for apertures, or simply when the vessel is in motion
- Powered and manual options available, complemented by a wide range of control mechanisms and accessories

1. Fabric choice

Choose from a variety of sheer, privacy or blackout fabrics.

2. Smart control

A choice of powered options ensure smart control with our Rollerblind range.

3. Customise

Choice of black, white or silver hardware and insert colours.

4. Cassette option

Cassette available to conceal the blind, mounting profile for a simple fit or standard bracket option.

5. Side tracks

For minimising light gap, side tracks are available on all our Rollerblind range.

6. Sophisticated finish

Durable aluminium frame with a classic roller blind look.

Dometic Oceanair
Rollerblind Manual

Keep it simple on the water with manually controlled roller blinds.

- Custom manufactured to client request
- Simple to use and easy to understand
- Optional side tracks and guide wires hold the blind in place, ideal for angled apertures or if used in any moving vehicle
- Mounting profile and cassette options for easy installation

Dometic Oceanair
Rollerblind Powered

Roller blinds made easier with a choice of powered controls at your disposal.

- Powered operation (12 V DC, 24 V DC or mains)
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Suitable for hard-to-reach areas
- Guide wire or side tracks available for securing blinds or increased blackout

Dometic Oceanair
Rollerblind Airshade

This secure roller blind with an enclosed cassette is designed to create a sleek & stylish finish within any marine interior. Ideal for larger window applications with quick and easy installation with just two screws, the Airshade is the ultimate blind for boaters looking for a simple and effective shading solution onboard.

- Suitable for larger application up to 1900 mm wide, and 1500 mm drop
- PrecisionRise control mechanism, allowing for secure stop at any given height
- Enclosed tubing which gives a sleek & stylish finish
- Easy installation with a maximum of two screws
- Customisable through a variety of fabrics, hold down options, fixing positioning or hardware colour

Benefits of Rollerblind Airshade

1. Suitable for larger applications

As our largest shade, it's the perfect solution for larger application up to 1900 mm wide, and 1500 mm drop.

2. Expertly designed

Meticulously designed for robust quality and finish, with all components suitable for the harshest marine conditions

3. Sleek & stylish finish

Featuring enclosed tubing, the Airshade offers a sophisticated addition to your boat's aesthetic.

4. Standard & custom options available

Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

5. Simple installation

Installation is easier than ever, simply use up to two screws to install the blind in your preferred position.

6. Child safe compliant

The design eliminates the need for hanging cords or wires, removing any hazards for children to get caught in.

Dometic Oceanair
Rollerblind PrecisionRise

The PrecisionRise offers an all-new, unique smart locking mechanism that allows it to be easily set and secured at any position. Enjoy unspoilt views or shade yourself from the sun, with this stylish and modern shading solution.

- New, smart locking mechanism
- Easily set and secure your blind at any position
- Available with a mounting profile bar or cassette for simple installation
- Robust quality, ideal for the harshest marine conditions
- Optional guide wire or side tracks
- Classic roller blind look

Dometic Oceanair Skyshade Portshade

Slim blackout roller blind for portlights or hatches.

Ultra-slim cassette roller blind, suitable for even the smallest of portlights. Our small profile blind is ideal for portlights, particularly those in the galley which often have little space around them.

- Simple installation with just two screws
- Range of hold-downs available
- Slim design for confined spaces, top or face fix
- Anti-rattle end caps
- Available in white, beige, or silver
- Available in standard sizes as well as custom design

Dometic Oceanair Skyview

Hybrid Venetian and roller blind for windows.

Skyview offers the functionality and tilt control of a Venetian blind with the simplicity of a roller blind. The blind can be completely stowed out of sight onto a single roller. When deployed, it ensures privacy and heat protection. The open tilt allows for perfect views and light control. Skyview can be controlled by either chain or powered operation.

- Open tilt for perfect views
- Closed tilt for privacy and light control
- Powered operation available with 12V DC, 24V DC, or mains motors
- Handheld remote, wall switch (not supplied), or integration into the control system
- Available with guide wire control for more secure deployment
- Soft, subtle finish with a contemporary style

Benefits of Skyview

1. Tilting horizontal vanes

Made from soft polyester suspended between two sheer fabric facings, allowing soft light diffusion and privacy without spoiling the view.

2. Smart control

A choice of powered options ensure smart control with our Skyview range.

3. Contemporary look

Soft, subtle finish with a contemporary style to match your boat interior.

Dometic Oceanair Skyshade Cabinshade

Blackout roller blind for windows and hatches.

The blackout properties of the Cabinshade make it perfect for small windows in the cabin, with the option of fitting it on the hatch for a seamless look. Cabinshade is larger in profile than the Portshade model, so it can house more fabric. This makes it ideal for larger applications.

- Custom design available as well as standard sizes
- Simple installation requires just two screws
- Anti-rattle end caps
- Range of hold-downs available
- Available in white, beige, or silver
- Top or face fix

4. Light diffusing and privacy fabrics

Select from an assortment of light diffusing or privacy fabrics, to create the ideal onboard environment.

5. Made to measure

Made to measure for a perfect fit on yacht windows.

6. Easy Installation

Simple to mount with minimal effort for a hassle-free setup.

ROOF & HATCH BLINDS

IN THE MIDDAY SUN

Dometic Oceanair roof & hatch blinds

With advances in yacht design and marine-based technologies, naval architects are able to take advantage of picturesque views with larger glass panels. Glass roofs are therefore becoming more popular, allowing you to take in the view of the heavens above, and enjoy the sunshine. With the midday sun, however, comes heat and glare,

which is not always welcome on board. Dometic’s range of roof & hatch blinds allows you to control light and heat so that an optimum level of comfort can be reached. The ultimate luxury is having your blinds close at the touch of a button – why not go a step further and use an automated blind for those hard-to-reach windows?

WHAT MAKES SKYSCREEN THE BEST CHOICE FOR YOU?

Dometic Skyscreen provides a unique solution to shading boat hatches by combining a blackout blind and a separate flyscreen within one unit, tailored to fit any type and size of hatch. Our blind innovation draws upon ongoing technological advances and end-user feedback to continue to provide a high-quality, cutting-edge product. Whatever your individual hatch requirements, the Skyscreen range includes a solution for you.

Benefits

- Blackout blind and separate insect screen in one unit
- Modular construction, available for any sized hatch
- Easy to install
- Retrofit over existing hatch trims, or recess into your headlining
- For a perfect finish, liner and trim sets are available to resolve through deck engineering challenges
- Choose between roller blind or pleated fabric depending on your preferred design
- Choice of product for every application

1. Standard sizes
Standard sizes available in our retail range.

2. Perfect finish accessories
Liner trim kits available for the perfect finish between hatch and screen.

3. Choice of colour
Available in a choice of white or beige.

4. Powered
Powered operation is available at 12 VDC or 24 VDC.

5. Natural ventilation
Flyscreen lets air into the cabin for a fresher interior.

6. Complete blackout
Blackout, moisture-resistant fabric for a low-maintenance finish.

Dometic Oceanair Skyscreen
Roller Surface

Surface-mounted blackout and flyscreen blind, ideal for retrofit.

- Quick and easy installation
- White or beige hardware colour
- Magnetic closure
- Optional liner systems
- Ideal for thin decks
- Standard sizes available as well as custom design

Dometic Oceanair Skyscreen
Roller Recessed

Combination hatch blind, engineered to sit flush with the headlining.

- Durable powder-coated aluminium cassette
- Low profile fitting means it sits flush with the headlining
- Blackout blind for a good night’s sleep
- Recoil damper system
- Standard sizes available
- Magnetic closure

Dometic Oceanair Skyscreen
Roller Concealed

Roller and flyscreen combination blind for concealed fitting within the headlining.

- Quick-release buttons available in 3 colours
- Recoil damper system
- Flyscreen and blackout combination

Dometic Oceanair Skyscreen
Powered

The Skyscreen Powered blind for hatch screens has a modular design for convenient versatility. Blind sections can be interchanged so that for example, the roller fabrics are combined within a single blind. It can also be completely concealed into the yacht headlining.

- Powered operation with 12 V DC or 24 V DC, enables effortless control
- Enjoy natural ventilation when flyscreen is in use
- Can be completely concealed into yacht headlining
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Roller fabric
- Blackout or flyscreen or both
- Belt drive system reduces operating noise and improves efficiency

Dometic Oceanair Skyscreen
Pleated

This compact lightweight pleated hatch blind is easy to use with integrated, magnetic handles. Its slim cassette ensures minimal impact on headroom. Available with single pleat fabric as standard, or with Honeycomb fabric for a complete blackout.

- The stylish powder-coated aluminium cassette is also very durable
- Slim cassette ensures minimal impact on headroom
- Easy-to-use lightweight blind with integrated, magnetic handles
- Concealed or surface-mounted option
- Brush strip to keep insects out
- White or beige hardware colour

Our Dometic Oceanair Skyshade range is available as standard with our blackout fabric, ensuring a dark cabin for a good night's sleep. Extra benefits include UV resistance, solar reflection, and moisture resistance – great features for use in a marine environment. The fabric also has a convenient wipe-clean surface, while the Skyshade's hardware is powder-coated in aluminium for a tough durability.

Dometic Oceanair Skyshade Hatchshade

Simple roller blind with a shaped cassette, designed to create a seamless finish with the headlining.

If you're looking for a quick and simple shade to keep the light out at night, then the Skyshade Hatchshade is ideal. Fully retracting into the cassette, Hatchshade is perfect for fixed hatches, where a flyscreen is not required. Optimally designed, Hatchshade combines the performance and technology of the Skyscreen fabric in a functional, cost-effective product.

- Shaped cassette for added style
- Powder-coated aluminium hardware
- Side pegs enable halfway opening
- Available in white or beige
- Range of hold-downs available
- Simple and fast installation with just two screws

Benefits of Skysol Hatchshade

1. Suitable for small and medium applications
Provides overhead shading from direct sunlight, controlling cabin light and temperature.

2. Expertly designed
Select from a variety of ergonomically designed handles for simple and effortless operation.

3. Standard & custom options available
Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

4. Designed for life at sea
The Skyshade's hardware is powder-coated in aluminium for tough durability.

5. Choice of colour
Available in a choice of white or beige.

6. Simple Installation
Simple and fast installation with just two screws.

Dometic Oceanair Skysol Track Large

The Dometic Skysol Track Large provides overhead shading from direct sunlight while seamlessly complementing the interior of your yacht. Available with a range of honeycomb fabric options, Skysol Track Large benefits from an innovative cording system, which leaves the aperture completely clear when stowed. Stay cool and shaded in your saloon space with this stylish roof blind from Dometic.

- Lightweight, ideal for roof application
- Robust track technology suitable for tight radius curves
- Discrete cording with no visible guidewires
- Wide range of available fabrics in privacy, or blackout
- Manual or powered operation available

Dometic Oceanair Skysol Frame

Our Skysol Frame is our manual control, large application roof blind. The blind arrives readily assembled for ease of installation.

Pre-assembled within a rectangular frame for ease of installation and added strength, Skysol Frame provides essential overhead shading from direct sunlight, controlling cabin light and temperature. Discrete cording supports the fabric whilst also leaving a completely clear, unobstructed aperture.

- Discrete cording supports fabric whilst leaving a completely clear aperture
- Pre-assembled, ready to install
- Blackout and flyscreen for temperature and light control, plus insect-free comfort
- Choose from pleated or honeycomb fabrics or use both in the same blind
- Flyscreen fabric available

Benefits of Skysol Track Large

1. Suitable for larger applications

The Skysol Track Large offers significantly more coverage than the Skysol Track Small.

2. Fabric choice

Choose from a variety of sheer, privacy or blackout fabrics.

3. Elegant finish

Discrete cording for a clear aperture while rods hold the fabric secure.

4. Not just for doors

Lightweight, smart pleated blind, custom built for shading large sunroofs.

5. Effortless control

Available with powered control – operation at the touch of a button.

6. Custom tracks

Our custom-made bent aluminium tracks make operating the blind smooth and simple.

Benefits of Skysol Frame

1. Suitable for small and medium applications

Provides overhead shading from direct sunlight, controlling cabin light and temperature.

2. Expertly designed

Discrete cording, supports the fabric whilst leaving a completely clear aperture.

3. Standard & custom options available

Select from a wide range of sizes, styles and fabric colours to create the ideal onboard environment.

4. Fabric options

Choose from pleated or honeycomb fabrics or use both in the same blind.

5. Effortless control

Available with powered control – operation at the touch of a button.

6. Simple installation

The unit come pre-assembled and ready to install, making installation a quick and simple task.

A well-lit yacht interior creates a bright and inviting atmosphere, but too much sunlight can bring unwanted heat and glare. Managing natural light effectively is key to maintaining comfort on board. The Skysol Manual Roofblind offers a practical and stylish solution, allowing you to effortlessly control brightness and temperature. Designed for smooth, manual operation, it provides shade when needed while preserving the sleek aesthetics of modern yacht interiors. Reliable and easy to use, it's the perfect choice for those who prefer a simple yet effective approach to onboard comfort.

Dometic Oceanair Skysol Manual Roofblind

A sleek solution crafted specifically for integration within fixed or sliding large sunroof windows, this manually operated blind stands out with its innovative design. Unlike traditional blinds, it operates seamlessly without guide wires, offering a clear aperture and tidy appearance. The Skysol Manual Roofblind is adaptable and can be curved to match various hatch and window shapes, ensuring a custom fit for your vessel. Featuring a reinforced crossbar, this blind is built for enhanced durability and strength. Its framed structure not only adds stability but also maintains an elegant look.

- Integrated within the pre-assembled frame for simple installation
- Dual fabric capability for multiple shading function
- No visible guidewires when the blind is stowed
- Robust moving rail, suitable for larger apertures
- Integrates perfectly with marine fixed or sliding sunroofs
- Custom-fit options available

Benefits of Skysol Manual Roofblind

1. Robust & guidewire free

Enjoy unobstructed views with no guide wires, providing a clear, sleek window solution.

2. Intermediate integrated bars

Integrated support bars ensure the blind stays taut and prevents sagging, maintaining a smooth and neat appearance when closed.

3. Integrates into existing sunroofs

Complements existing sunroofs, enhancing versatility and functionality for seamless integration into your boat's design and layout.

4. Dual fabric capability

Select from two fabrics in a single blind for enhanced light and privacy control.

5. Offers precise control

Ideal for those who may not have power available or appreciate both convenience and reliability at sea.

6. Suitable for curved sunroofs

Can be curved to match various hatch and window shapes, ensuring a custom fit for your vessel.

With advances in yacht design and marine-based technologies, naval architects can take advantage of picturesque views with larger glass panels. Glass roofs are therefore becoming more popular, allowing you to take in the view of the heavens above and enjoy the sunshine. With the midday sun, however, comes heat and glare, which is not always welcome on board. Skysol Powered Roofblind allows you to control light and heat so that an optimum level of comfort can be reached. The ultimate in luxury living is having your blinds close at the touch of a button – why not go a step further and use an automated blind for those hard-to-reach windows.

**Dometic Oceanair Skysol
Powered Roofblind**

Skysol Powered Roofblind is the best powered blind on the market for larger applications such as roof windows. It can be integrated into the headlining for a seamless finish. Control by hand-held remote, wall switch (not supplied), or integration into the control system.

- Innovative belt-drive system for quieter, strain-free operation
- Integrate into the headlining for seamless results
- Powered operation available with 12 V DC or 24 V DC motors
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Range of mid-rail types depending on the weight of the blind
- Privacy or blackout fabrics available
- Available with frames to prevent the need for built-in headlining

Benefits of Skysol Powered Roofblind

1. Belt drive system
Strain-free motor drive system that operates both blinds independently.

2. Effortless control
Powered by a range of motor options to cover all installation challenges.

3. Controls
Choose from hand-held remote, wall switch (not supplied), or integrated control operation.

4. Daytime privacy
Our range of privacy fabrics allows light into the yacht’s interior whilst retaining privacy.

5. Blackout
Our blackout fabrics are perfect for a good night’s sleep.

6. Complements Skysol range
Perfectly compliments our Skysol range.

From warm comfort to modern styling, Dometic’s wide range of slats and ladders create a pleasant environment onboard whilst preserving outside views. Our Venetian blinds accommodate shaped and inclined windows and offer optimum privacy, UV, temperature and light control.

WHAT MAKES VENETIAN BLINDS THE BEST CHOICE FOR YOU?

All Dometic Oceanair Skyvenetian blinds can be customised to your requirements. There is a range of standard colour options to choose from, but as with most of our products, you are free to specify a fabric that is unique to you. Our experienced team is on hand to guide your choice to best fit the intended application. With powered control options available – handheld remote, wall switch (not supplied), or integration with your system control – using 12 V DC, 24 V DC or mains voltage power.

Benefits

- Tilt control, shading the interior from intense heat, while allowing visibility through the aperture
- Likewise, tilt for privacy from the water’s edge, while allowing light to cascade into the room
- A stylish-looking blind that will add to the finish of the room, while providing functionality
- Almost every element of the blind can be customised, allowing for contrast ladders, ferrules, or even stitching on leather blinds
- Child-safe design gives peace of mind

1. Custom stitching

Leather slats can be finished with a matching or contrasting coloured stitch.

2. Effortless control

Powered options ensure effortless control with our Venetian blinds (excludes Precision).

3. Range of finishes

Select from a wide range of patterns and finishes.

4. Range of slat sizes

Choose from 16 mm, 25 mm, and 50 mm slat widths.

5. Optional side tracks

Side tracks are a great alternative to guide wires for a sophisticated look.

6. Contemporary look

Whichever Venetian blind you choose will give your interior a contemporary finish.

**Dometic Oceanair
Skyvenetian Precision**

Venetian blind with precision-hold control.

A versatile Venetian blind has precision hold technology, meaning it can be held at any desired height through its in-built, child-safe tension system. Skyvenetian Precision is available in aluminium or wood slats, with a range of standard colours to choose from.

- Choose from aluminium (16 mm or 25 mm) or wood slat (25 mm)
- Child-safe with no loose operating cords
- Elegant pinch-release chrome handles
- Range of standard colours to choose from

**Dometic Oceanair
Skyvenetian Wood**

Hand-crafted classic Venetian blind with the highest quality wooden slats.

Wooden Venetian blinds subtly enhance your onboard space through the use of a simple tilt mechanism. Tilting the slats allows for easy light and temperature control, preventing unwanted glare and UV damage. The slat angle also offers privacy without completely reducing light transmission and outward visibility.

- With a choice of 25 mm or 50 mm slats
- Simple shaping available
- Various child-safe manual control options
- Available with guide wires or sidetracks to ensure taught blinds
- Range of standard colours to choose from
- Available with powered operation

**Dometic Oceanair
Skyvenetian Alloy**

Venetian blind for windows & doors.

The Dometic Oceanair Skyvenetian Alloy is a stylish addition to any yacht interior. The curved slats offer added strength, while also ensuring a small stack height.

- With a choice of 16mm, 25 mm or 50 mm slats
- Simple shaping available
- Curved slats offer added strength and ensure small stack height
- Range of standard colours available or customise with any RAL colour
- Various child-safe manual control options
- Available with powered operation

**Dometic Oceanair
Skyvenetian Leather**

Luxury blind with slats covered in a choice of the finest leathers, perfect for windows.

This stylish blind provides effective shading and privacy for the interior of your yacht. Almost every element of the blind can be customised, allowing for contrast ladders, ferrules or even stitching on the leather blinds.

- Handmade in Great Britain
- With a choice of 50 mm alloy slats / 35 mm or 50 mm wooden slats
- Select from faux or real leather fabrics
- Available with guide wires or sidetracks
- Available with powered operation

SIT BACK & RELAX

Unwind with our selection of creature comfort accessories for your yacht – the perfect finishing touch!

Complement your interior with the use of luxury bedding designed to fit your every need. Add details such as embroidered logos, luxury quilting, and trims or buttons to complete the look. Wherever you are in the world, make sure you’re comfortable.

Our luxury cushions and pillows are tailor-made to suit you. There's a size, shape, trim or fill choice to fit your every design need. Choose from duck down, polyester, and down alternative fill options, classic or contemporary aesthetics, and subtle or vibrant colours for your saloon. Enjoy added comfort for relaxation with style.

Dometic Oceanair Bedding

A complete bedding package can be provided that takes indulgence to another level – from sheets, duvets and bed scarves to throws and accent pillows.

The complete set can be designed to your specifications in style and colour or even include details such as embroidered logos or special trim. Bed linens are made from the highest quality fabric and custom-tailored for the perfect fit. Whether choosing a contemporary or traditional style, bedding is a quick and simple way to transform and elevate the appearance of your yacht.

- Personalise with in-house embroidery service
- Luxury sheets are made from the finest premium linens and custom-tailored to fit your mattress
- Design consultancy can coordinate fabrics with existing interior finishes and furnishings
- A wide range of quality fabrics available to complement any decor
- Custom-made bed covers and duvets to cater to mattresses of all shapes and sizes

Dometic Oceanair Towels

Made to an uncompromisingly high standard and tested for absorbency, shrinkage, colour fastness, and shedding.

Dometic Oceanair Towels are made from premium cotton and innovative yarn-spinning technology is used to ensure lasting softness. Lengthened low twist, stable spun fibre loops offer durability, reduced drying times, and lasting colour. Add a personal touch to your towel collection with our in-house embroidery service. Towel sets, deck towels and bathmats are available in white. Custom-tailored shower curtains are also available.

- Innovative yarn-spinning technology ensures cotton softness
- Embroidery service available
- Quick-drying properties are ideal for on-board usage
- Lengthened low twist, stable spun fibre loops offer durability, reduced drying times, and lasting colour
- 100% premium cotton

1. Standard & custom options available

Select from a wide range of sizes, styles and colours to create the ideal onboard environment.

2. Embroidery

Personalise with matching or contrasting colour embroidery.

3. Invisible zip

Our cushions are finished with invisible zips for a seamless finish.

4. Contrast piping

Piping adds a luxury feel to the cushion, add a bold statement with contrast piping.

5. Mitred corners

Exquisitely tailored corners, perfectly matched.

6. Trimming

Trim finishes for your cushions for added elegance.

Dometic Oceanair Cushions

Cushions and pillows are the ultimate interior accessories, improving the comfort and style of your yacht. They create a beautiful finishing touch to your home away from home.

Accent pillows are an effective way to instantly transform the look of your yacht's interior. Add a touch of colour and class with our completely customizable range. Set the tone of any room, exactly as you envision it, through the style, size, and colour of your cushions.

- Bespoke products with a large choice of colours, styles and sizes
- Custom embroidery available on request
- Choice of luxury fillings, including duck down, down alternative, and polyester fill
- We can select fabric to match your décor or work with your supplied fabric
- Wide variety of fabrics to choose from
- Contrast colour border options available

WHAT MAKES ROMANBLIND THE BEST CHOICE FOR YOU?

A traditional fabric blind tailored to your exact requirements by experienced machinists. Add a luxurious look to your windows, whether you need a functional blackout or sheer blind, or simply a decorative accessory, Romanblind could be the perfect match for your yacht.

Benefits

- Can work with customer specified fabric or choose from our collection
- Suitable for slight inclines
- Handmade in Great Britain
- Interlining available for extra warmth and a luxurious touch
- Available with guide wires and side tracks
- Powered operation available with 12V DC, 24V DC, or mains motors
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system

Gradient Hard
Stepped pleats when stowed with a crisp and contemporary finish.

Gradient Soft
Stepped pleats when stowed with a casual, soft finish.

Hobble
Our wave style pleat gives depth and movement to the blind even when deployed (as shown).

Standard Hard
Equal pleats when stowed with a crisp and contemporary finish.

Standard Soft
Equal pleats when stowed, with a casual, soft finish.

Sheer Roman
Sheer fabrics are used with clear rods and tapes for a delicate finish.

WHAT MAKES CURTAINS & DRAPES THE BEST CHOICE FOR YOU?

Curtains provide a versatile and elegant way to add style and atmosphere to your yacht whilst offering varying degrees of insulation, privacy, and shade. With a wide choice of linings, interlinings, shapes, lengths, colours, and fabrics, Dometic Oceanair Curtains are an attractive and adaptable way to soften your yacht’s interior. We have a specialist team on hand to help make the selection, ordering, and installation process effortless.

Benefits

- Can work with customer specified fabric or choose from our collection
- Sheer, privacy, blackout, thermal & fire retardant fabrics available
- Powered operation available with 24 V DC or mains motors
- Choice of linings and interlinings, plus fire retardancy on request
- Operation via hand-held remote, wall switch (not supplied), or integration into the control system
- Custom track bending service, ideal for curved surfaces
- Attention to detail with optional hand-stitched finish
- Specialist team on hand to make the selection, ordering, and installation process effortless

Pencil Pleat

For a fuller look.

Pinch Pleat

A classic, timeless style.

Triple Pinch Pleat

Elaborate pleats give an elegant finish.

Ripple Pleat

A contemporary style.

Eyelets

Modern in finish.

Cartridge Pleat

For a permanent wave effect.
